Specific Contributions of Colombo for next 4 years

- Colombo is a founder member of CityNet since 1987 and continues to be an Executive Committee member to date and hence can contribute effectively to strengthen the network in the future as done in past.
- Colombo provides leadership to other Local Authorities in Sri Lanka through the CityNet National Chapter and will take further steps to strengthen National Chapters.
- Colombo will promote NGOs to work with cities for their development
- Colombo hosted the National Chapter for last 20 years and several projects were successfully completed by Colombo in partnership with donors and other members of the Network under the initiative of CityNet. We wish to continue the same concept in the future with more innovative and productive Projects to improve the services of cities by sharing best practices.
Specific Contribution of Colombo for next 4 years

Colombo has substantial experience through projects implemented in the past with the initiative of CityNet.

To mention a few:

- World Disaster Reduction Campaign
- Networking and Capacity Building Project – PROACT
- Knowledge sharing through working with European counterparts
- Environmental Education Project
- PostAWAREE Project on combating Global Warming.

Being the Chair of the CityNet National Chapter of Sri Lanka, Colombo provided the leadership for CityNet activities in other cities in Sri Lanka. Hence, Colombo is confident that a sufficient contribution can be made to achieve the goals identified.

By sharing knowledge and the experience gained through Projects, Training, Study Visits etc., we project the image of CityNet and it’s activities.
Specific Contribution of Colombo for next 4 years

- To be the local host for future Executive Committee Meetings
- To be the local host for National Chapter Meetings
- To give leadership to one of the Clusters.
- To actively engage in CityNet activities by promoting CityNet within Sri Lankan cities and other NGOs.
- To help other cities to find foreign grants to provide efficient service delivery with the help of CityNet.
- To promote Public Private Partnerships and strengthen cities with new Technology for an efficient service delivery in Cities.
